PERSPECTIVE  
RAMP INTO APARTMENT: WATER FEATURE

ENVIRONMENTAL ISSUES ON SITE:-

GREEN ROOFS:  
ALL ROOFS ARE GREEN AND CAN BE ACCESSED VIA DIFFERENT LEVEL OF THE STREET ON DIFFERENT LEVEL

WATER STORAGE:  
ALL RAIN WATER AND RUNOFFS FROM STREET WITH RELATIVE LEVEL HIGHER THAN SITE WILL BE STORED WHERE IT WILL GO THROUGH A FILTER AND TURNED INTO A WATER FEATURE (AS SEEN IN PERSPECTIVE), DARKER RAMP WAYS A MORE PLEASING TO WALK THROUGH. THE WATER FEATURE ALSO ACTS AS A LIGHT WELL TO THE DARK AREAS

THE ROOF ON THE RESIDENTIAL AREA ARE MADE SO THERE IS A GRID OF TIMBER WHERE PLANTS CAN GROW. ACTING AS A BREAKOUT SPACE AND SHADING THE BUILDING AT THE SAME TIME.
